Values at Qliro

Together we created our values that will serve as a core and a positive force that will guide us in our business decisions, interactions and how we work toward our goals.

Follow your curiosity

If you are really interested in something, chances are you will be good at it.

Qliro is a place where you can grow and thrive. Where it is safe to test and learn and explore your passions.

Work should be fun – careers are not just about rocketing upwards, it is about creating your own path.

Mindful organisation

We believe that a healthy mind is just as important as a healthy body.

To take care of your mind we host regular mindfulness sessions with our Head of Empowerment.

You will learn how to keep the brain energized and focused. We also learn how to build resilience so that you can enjoy learning, performing, collaborating, and feel happy and energized while doing so.

Flexible remote

We love flexibility and remote work, however we believe in the power of meeting in real life. We want our office to be a space for collaboration and creativity, where we can meet and bring out the best in each other.

With a mix of working remote and collaborating in the office, we believe in a flexible workplace that suits you and Qliro.

Let's create magic!
